One of the oldest and most well-known spots in downtown Antioch, Thompson's Bar and Grill, 933 Main St., saw its last day on Oct. 31. The building, which has been vacant for several years, was torn down to make a walkway from Main st. to the area behind the eastside stores in an effort to revitalize the downtown area. —Photo by Bill Giovanni.

Antioch Sequoits Trigger Community Pep Rally, Dance

by KAREN WILTBERGER

Spirit is high in Antioch this week as the Antioch varsity football Sequoits prepare for an Illinois High School Association quarter-final game against Forest View Saturday.

A community pep rally will be held in the high school in the north gym and commons Friday, Nov. 11 at 7:30 p.m., followed by a community Sock Hop.

"We have great community spirit," said ACHS Principal Art Blecke. "We've got one of the best followings of any school in the conference."

Supt. Gary Allen said, "I think this team has surprised everyone. The kids have improved every game."

Allen added that "the community is very supportive of all the high school activities. It's nice to see the school get that kind of attention."

Chris Lindberg, director of the pep band, said she expects more than the usual 30 or 40 pep band members for the pep rally. "The kids are really excited," she said.

Footlights Opens For Final Shows

The final performances of St. Peter's Parish Footlights will be Nov. 8 and 9. Ten classrooms have become the stages for continuous quality entertainment. The doors will open at 6 p.m. The cost is \$9.

Entertainment includes soft piano entertainment mixed with gourmet dining, Dixie music, western music (really, any kind of music), bakery goods, PM&L Theater skits, sports bar and ice cream bar.

Village Seeks Payment From 5 Industries

by KAREN WILTBERGER

The Village of Antioch has decided to seek payment for sewage treatment costs from five Antioch industries that have a large amount of heavy metals in their waste disposal.

The decision came after an executive session of the village board on Nov. 7. Mark Harasti, chief operator of the Waste Water Treatment Plant, said a high level of heavy metals in the industrial waste has cost the village about \$20,000 for sewage disposal over the past year.

Because of a high heavy metal content, Harasti said, the village has not been allowed to land apply the sludge as a fertilizer, and has had to turn to a more expensive means of disposal.

"The entire village is paying for the (industries') disposals and it's not fair. Some of the costs are the responsibilities of the industries," he said.

The village is seeking about \$2,400 from the five industries, of which the bulk is sought

from a lone industry, Harasti said. The industries received notification of the problem four to six months ago after the sewage content was sampled, he said. Since then, industries have made some progress, but "there has been no direct communication to tell me what they're doing," Harasti said.

The heavy metals are also a concern because of tighter sewage treatment laws of the Illinois Environmental Protection Agency. Aside from the additional costs of the village, the IEPA has set an April 1986 deadline for an outline of pre-treatment programs.

Mayor Raymond Toft said the village will purchase another sewer disposal sampler to determine the amounts of heavy metals in the other 15 to 20 Antioch industries. He said the IEPA has come down on the village, and the village has no other choice than to come down on industries that are causing the problems.

Developer Seeks 13.5 Acres For Businesses

by KAREN WILTBERGER

The Antioch Village Board forwarded to the planning commission a petition to rezone 13.5 acres on the northwest corner of Rtes. 83 and 173, from residential to zoning for a motel, multi-family residences and businesses.

John L. Dupre, holder of the petition, has an option to buy the land that is owned by Ken Liddle, also the seller of another corner of Rtes. 83 and 173 that has been rezoned for a Burger King.

Mayor Raymond Toft said Dupre has plans of developing the land to include a motel, multi-family homes and several businesses, including a fast food restaurant and service station.

The planning commission will hear Dupre's request as soon as Nov. 21 if a

property survey is completed by the end of the week, Toft said. The request would then go before the zoning board of appeals before being on the agenda for final approval by the village board.

The request is to change residential zoning to B3, R5 Special Use and R5 zoning.

In other news, a national developer, Hardcourt, based in Tempe, Arizona, asked the village board to issue industrial revenue bonds for construction of a multi-family development on the southwest part of town, off of Rte. 59.

Representative Dick Jansen told the board the bonds would have to be issued by the end of November because of a possible change in the tax exempt status of the bonds beginning Jan. 1. The village denied that request until a petition for rezoning had been approved.

Writer Conflict

Editor:
My letter is a comment concerning Mrs. Harris' recent column in the Antioch Reporter.

Since when does a newspaper give a columnist the right to print any political matter concerning elections or personal viewpoints concerning elections? If the people mentioned in her column

wanted an ad, they are to pay for it themselves, not get free advertisement in the community column!

I am surprised that anyone has let you or Mrs. Harris get away with writing these things in her column. I did not major in journalism, but I do know that these articles that are being written should not be permitted. Did you know that Mrs. Harris is

currently a Grass Lake School Board member? I would say this is a definite conflict of interest on her part.

This article infuriates me, and it gives me one more reason why I do not subscribe to the Antioch Reporter.

Moderate Turnout In ACHS Board Race

The race for the five open seats on the Antioch High School (ACHS) Board, though not one made-up of strong issues, has seen more active campaigning than the usual no issue race.

New ACHS Supt. Gary Allen said before the election that he did not expect a heavy turnout because "most people seem to be running just because they want to be involved."

Twelve-year board president and 21-year board veteran, Robert Lindblad said, "The turnout will probably be heavier than in an apathetic race because of the active cam-

paigning of the three challengers, but I don't think it will be tremendous."

Vying for the five open seats on Nov. 5 were long time board member and long time Antioch resident Robert Forester who wants to continue the work he has been doing on the board (Apologies to Mr. Forester for leaving his name off of the list of candidates in last week's newspaper.); appointees Tom Fisher and Mike Zeien, Julie Portalski and Glen Moore, all incumbents.

Challenging them were Russ Lehn, Elizabeth Bates and Larry Siwula, all from the Lake Villa-Lindenhurst area.

DISCOVER Helps Students

A computer program that started this fall at Antioch Community High School is helping students make college and career decisions. And the students can see the results in just seconds instead of weeks.

The program, DISCOVER, is a complete career information and guidance system. It is located in the school's College and Career Center that opened in August.

DISCOVER helps students in four steps. First the students learn about themselves by assessing their interests, abilities and values. With that information, they search for occupations that fit the assessments.

Students then learn about the occupations. They can ask the computer up to 16 questions about an occupation, including those about tasks, work settings, tools and related oc-

cupations.

After students find an occupational niche, they can find educational information about colleges and technical schools. Schools can be found by different categories—major, cost, region, size of enrollment and size of community.

The educational information phase of DISCOVER includes data on about 1500 two-year colleges, 1800 four-year colleges and 1000 graduate schools.

So far, the student reaction has been extremely positive, said Adrian Mueller, coordinator of vocational education. The more students know about it, the more they enjoy it, he said.

The center has all the bits and pieces of college and career information that used to be in the hands of various instructors and the library, Mueller said. Because the center is geared to both college and career, it is

attracting all types of students, he said.

A few classes have already begun to use the center, but Mueller said he would like to see the center and DISCOVER be used by more classes. "It provides

students with a more planned educational choice as well as career choice," he said.

The center is open on school days from 7:30 a.m. to 4 p.m. for students and their parents.

Change Meeting

The continued meeting of Nov. 6 of the Zoning Board of Appeals has been changed to Wednesday, Nov. 13 at 7:30 p.m. at the Antioch Village Hall. The purpose is to review the petition of Dennis O'Donnell for the peice of property on 614 Main St.

Letter To The Editor:

Writer Conflict

Editor:

My letter is a comment concerning Mrs. Harris' recent column in the Antioch Reporter.

Since when does a newspaper give a columnist the right to print any political matter concerning elections or personal viewpoints concerning elections? If the people mentioned in her column

wanted an ad, they are to pay for it themselves, not get free advertisement in the community column!

I am suprised that anyone has let you or Mrs. Harris get away with writing these things in her column. I did not major in journalism, but I do know that these articles that are being written should not be permitted. Did you know that Mrs. Harris is

currently a Grass Lake School Board member? I would say this is a definite conflict of interest on her part.

This article infuriates me, and it gives me one more reason why I do not subscribe to the Antioch Reporter.

Mrs. Carole Mattson

Moderate Turnout In ACHS Board Race

The race for the five open seats on the Antioch High School (ACHS) Board, though not one made-up of strong issues, has seen more active campaigning than the usual no issue race.

New ACHS Supt. Gary Allen said before the election that he did not expect a heavy turnout because "most people seem to be running just because they want to be involved."

Twelve-year board president and 21-year board veteran, Robert Lindblad said, "The turnout will probably be heavier than in an apathetic race because of the active cam-

paigning of the three challengers, but I don't think it will be tremendous."

Vying for the five open seats on Nov. 5 were long time board member and long time Antioch resident Robert Forester who wants to continue the work he has been doing on the board (Apologies to Mr. Forester for leaving his name off of the list of candidates in last week's newspaper.); appointees Tom Fisher and Mike Zeien, Julie Portalski and Glen Moore, all incumbents.

Challenging them were Russ Lehn, Elizabeth Bates and Larry Siwula, all from the Lake Villa-Lindenhurst area.

DISCOVER Helps Students

A computer program that started this fall at Antioch Community High School is helping students make college and career decisions. And the students can see the results in just seconds instead of weeks.

The program, DISCOVER, is a complete career information and guidance system. It is located in the school's College and Career Center that opened in August.

DISCOVER helps students in four steps. First the students learn about themselves by assessing their interests, abilities and values. With that information, they search for occupations that fit the assessments.

Students then learn about the occupations. They can ask the computer up to 16 questions about an occupation, including those about tasks, work settings, tools and related oc-

cupations.

After students find an occupational niche, they can find educational information about colleges and technical schools. Schools can be found by different categories--major, cost, region, size of enrollment and size of community.

The educational information phase of DISCOVER includes data on about 1500 two-year colleges, 1800 four-year colleges and 1000 graduate schools.

So far, the student reaction has been extremely positive, said Adrian Mueller, coordinator of vocational education. The more students know about it, the more they enjoy it, he said.

The center has all the bits and pieces of college and career information that used to be in the hands of various instructors and the library, Mueller said. Because the center is geared to both college and career, it is

attracting all types of students, he said.

A few classes have already begun to use the center, but Mueller said he would like to

see the center and DISCOVER be used by more classes. "It provides

students with a more planned educational choice as well as career choice," he said.

The center is open on school days from 7:30 a.m. to 4 p.m. for students and their parents.

Change Meeting

The continued meeting of Nov. 6 of the Zoning Board of Appeals has been changed to Wednesday, Nov. 13 at 7:30 p.m. at the Antioch Village Hall. The purpose is to review the petition of Dennis O'Donnell for the peice of property on 614 Main St.

Urge Ban On Pole Politics

With the 1985 election campaign in full swing, Commonwealth Edison makes the following appeal to all candidates and their supporters, regardless of party: please don't tack posters, notices or the like on utility poles. The same plea is addressed to people who want to promote garage sales or reach the public for any other reason.

Anything tacked on utility poles can cause trouble for the line crews. Too often, utility workers suffer cuts and gashes from encounters with nails and tacks used to affix the posters. The hardware lurks, awaiting a chance encounter with an unsuspecting lineman's hands or legs on a dark, stormy night when he is restoring power to an area that has had service interrupted.

Although utility crew members carefully inspect each pole before climbing, it's easy to miss a nail or tack in the dark of night.

New Convert Enlisted For Venita

Wauconda Village Clerk Venita McConnell has collected her fourth endorsement from a village clerk in her bid for the Republican nomination for Lake County Clerk in the 1986 elections.

McConnell's latest convert is Hainesville Village Clerk Carol Verley, who joins clerks Colleen Kasting of

Mundelein, Edith Heimos of Round Lake Park, and Joan Hendricks of Round Lake Heights in supporting her candidacy. Kasting is also the president of the Municipal Clerks of Illinois.

Verley observed, "I may just be a village clerk of a small town, but I know that an experienced village clerk

with a strong business background will make an excellent Lake County clerk. She will help all the people in the county. Venita understands the basics of the county clerk's office. She has the business experience to manage, train and work with all the individuals employed in the county clerk's office. I strongly urge all voters to elect the most qualified candidate as Lake County Clerk. Vote for Venita McConnell."

'Dolly' Won't Go Away For A Long Long Time

by GLORIA DAVIS

The fact that David Merrick had a tall blond named Carol Channing in mind when he first put "Hello Dolly" on a Broadway stage, doesn't deter petite dark-haired Marriott favorite Alene Robertson from making the role all hers.

in her usual fine engenie performance and Richard Casper's Cornelius Hackl is a hayseed you just gotta love.

Plaudits are also richly deserved by William Akey, especially in the scene where he literally turns into a

Alene Robertson

Stage Review

The latest musical offering of Marriott's Lincolnshire Theater is all Robertson, adorned with the excellent performances of her fellow cast members in a production that should have them lined-up at the boxoffice for a long time.

Robertson's innate sense of humor, plus that blockbuster resonant voice of hers, makes her interpretation of Dolly one of my favorites.

Dale Benson comes across hilariously in a nasal version of a "rawther" stuffy Paw Kettle as Horace Vandergelder the unwilling target of Dolly's matrimonial safari.

Pretty Paul Scrofano turns

human milkshake.

The chorus, made up of many solo-caliber singers and dancers, is as usual a credit to producer, Kary Walker, director, Dominic Missimi and choreographer, Rudy Hogenmiller.

Marriott always does a good job with its special effects, but they go all the way in this one, from the cartoon choo-choo-train, to the favorite "Hello Dolly" number, to the flashingly lit finale.

Kevin Sites and the theater's orchestra are in top form.

The audience loved it all, giving Robertson a standing ovation for a curtain call the night this reviewer attended.

Non-Smoking Singles Dance

On Saturday, Nov. 10, Non-Smoking Singles will be meeting at Zackery's, located in the Mundelein Holiday Inn. They will be meeting at 2 p.m. for dancing, followed by dinner. Non-members are welcome. Reservations a must. (312) 223-8544.

Set Handel's 'Messiah' For St. Peters Church

A chorus is being formed to do two performances of G. F. Handel's "Messiah" (the Christmas section). The first performance will be at St. Peter's Church in Antioch, at 8 p.m. on Friday, Dec. 6; the second performance will be at Hawthorn Center, Marshall Field wing, on Sunday Dec. 8. The Hawthorn Center performance is for the benefit of The Grove School.

Dr. Lynn Schornick, conductor of both the Waukegan Symphony and the Evanston Symphony, will direct the chorus and the accompanying chamber orchestra.

Ralph Brooke, head of the fine arts department at Antioch Community High School and director of vocal music, will be the rehearsal conductor.

Rehearsals will be held in the ACHS choral room (in back of the main building) from 2 - 4 p.m., on the following Sundays: Nov. 10, 17 and 24. There will be a dress rehearsal on Thursday, Dec. 5, time and place to be announced. Copies of the music will be available. For further information call Ken Smouse at (312) 395-1333.

To Play Korsakov

The Lake Forest Symphony will present a unique multi-media production of Rimsky-Korsakov's "Scheherazade" at the annual "Symphony Day" performances, Nov. 14 and 15 at the Highland Park High School Auditorium.

This presentation of Rimsky-Korsakov's famous music combines the narration of Scheherazade's legendary tales with a fast-moving, colorful display of classic and original artworks, a vivid illustration of the stories from the "Arabian Nights" for the student audiences.

Each concert will open

with a work featuring a winner of the John Reid Eastman Young Artist Award. On Nov. 14, 16-year-old Libertyville cellist, Gitta Sorenson will perform the first movement of the Saint-Saens "Cello Concerto in A minor." On Nov. 15, 15-year-old Chris Ptack, Lake Forest, will perform Chaminade's "Concertino for Flute and Orchestra."

Outreach Features LaMaze

To help parents prepare for childbirth, Victory Health Outreach Center is offering a new Lamaze series of classes.

The series will meet from 7 to 9:30 p.m. each Friday, beginning Nov. 8 and ending Dec. 13, at the Outreach Center, 121 E. Grand Ave., Lake Villa.

Mrs. Evelyn Worthen, a registered nurse, will instruct the class how to best physically and psychologically prepare for and participate actively in labor and delivery.

Holding a degree in midwifery from her native England, Worthen started teaching classes in prepared childbirth about 20 years ago, adapting the method of pre-natal care she had learned in England. She has taught thousands of husbands and wives what to expect in preparing themselves for the arrival of a newborn child.

Topics to be included in the six-session series include: the importance of prenatal care, anatomy and physiology, frequently used obstetrics terminology, the father's role in the labor room and delivery room, nutrition, breathing during labor, infant bonding, what to do when your doctor says "stop pushing," and going home.

But there is no magic formula, no promises. They learn how to help themselves. This Lamaze series helps them adopt a very positive approach toward childbirth," she commented.

"The women are not so frightened, and afterward, they are proud of the way their husbands helped them. And husbands are proud of their wives," the nurse added.

Cost of the Lamaze series is \$50. For more information or to register call Victory Hospital at (312) 360-4123.

Residents Get Opportunity

Northeastern Illinois residents interested in protecting and restoring lakes have a rare opportunity to attend an international gathering of lake management specialists.

This year, the annual conference of the North American Lake Management Society (NALMS) is coming to the midwest at scenic Lake Geneva, Wisconsin. Entitled International Symposium on Applied Lake and Watershed Management, the conference will run from Wednesday through Saturday, Nov. 13-16.

All-day workshops on Thursday and Saturday should be of particular interest to local lake managers and homeowners. Organized into concurrent sessions, the workshops will cover many of the problems facing Illinois lakes, such as shoreline protection,

management of aquatic weeds and algae, sediment removal, fisheries management, and water quality monitoring programs.

The conference also includes sessions on topics such as aeration systems, wetland impacts, recreational use conflicts, toxic contaminants, public health, and the acid rain

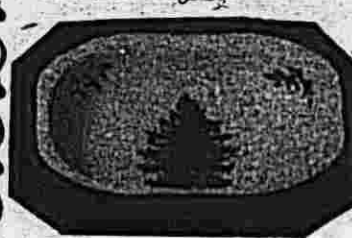

problem.

Attendance at some sessions may be limited, so pre-registration is strongly recommended. For further information, contact: Bob Kirschner, Symposium Program Co-chair, Northeastern Illinois Planning Commission, 400 West Madison Street, Chicago, Illinois, 60606; phone, (312) 454-0400.

from a clinical perspective, studying the dynamics of the offender and the impact on the victim. This seminar will address the tasks of identification, investigation, validation, intervention, disposition, treatment and management of child sexual abuse.

"This will be the last educational conference in this series. Due to the support of the Lake County Sexual Abuse Task Force, we have identified the child sexual abuse issues facing this county. We have been successful in our prosecutions where other jurisdictions have failed. The time has come for interested residents of this area to support this concept and do all they can to attend this conference. This will be a tremendous learning experience for all those involved," Foreman said.

Foreman Pushes Abuse Confab

Lake County State's Atty. Fred Foreman urges all people interested in dealing with the problem of child sexual abuse, attend the General Conference on Child Sexual Abuse: Victims and Offenders, offered on Thursday and Friday, Nov. 7 and 8, at the Hotel Moraine in Highwood.

"If we, as residents of Lake County, are to carry through our effort to deal with this problem, we must support this conference on Nov. 7 and 8," he said. The recognized experts in the field of child sexual abuse, A. Nickolas Groth and Linda Canfield Blick, will be present to identify the issues involved in the treatment of child sexual abuse in Lake County.

This two-day conference, relevant to all professional groups, will examine the sexual abuse of children

Hospitals Honor 'Geo'

State Sen. Adeline GeoKaris, (R-Zion) was selected as an "Outstanding Legislator" for 1985 by the Illinois Hospital Assn. (IHA).

In announcing the selec-

tion, Kenneth Robbins, president of IHA, praised GeoKaris as a leader in developing initiatives to contain health care costs.

"Sen. GeoKaris is a key legislative leader as

hospitals, physicians, consumers and business leaders work with the general assembly to develop incentives for holding down the costs of providing health care," Robbins said.

The general assembly has been working to provide avenues for competition between hospitals in an effort to maintain the quality, access, and affordability of medical care in Illinois.

Robbins told a recent gathering of Illinois hospital representatives that GeoKaris was instrumental in meeting the challenges of reform and integrity.

"Fortunately, Illinois has a common-sense legislator in Sen. GeoKaris. She is fighting for a viable health care system which will hold down costs but not adversely affect the quality of care offered to Illinois citizens," Robbins said.

"Sen. GeoKaris was a strong and thoughtful leader in the legislative struggles, and the citizens and hospitals of Illinois will benefit from her action."

Trace Vehicle

The Kenosha County Sheriff Dept.'s investigation on the armed robbery of the First Bank Southeast, Salem Branch on Oct. 24 may lead to an arrest soon.

The sheriff's department has traced the 1977 Cadillac

with Illinois plates that was identified as the robber's get-a-way car and the identity of the car's owner is known.

The gunman is reported to have gotten over \$10,000 in the robbery.

Executive Keeps Wearing Plaid Under New Hat

by KAREN WILTBERGER

Jim McKinley has been wearing plaid jackets to work for 21 years. And he will continue the tradition at Scot Forge in Spring Grove under a new hat—president and chief operating officer.

The 42-year-old McKinley is the first non-family member to take over the position at the Spring Grove company, which has divisions in Cicero, Ill., and Clinton, Wis.

The former Scottish president, Pete Georgeson, has stepped up to chairman of the board and chief executive officer of the family-owned company, which was sold to his uncle by a German family in 1903.

McKinley, having a touch of Scottish himself, says he fits right into the executive position. Besides, he has already broken in 34 executive plaid jackets, well "tartan" to be more exact.

"I'm very excited," said McKinley. "There's a real job to be done. I'm already getting a feel for it."

"I've known it was going to happen, but when it finally does happen, it's very exciting," McKinley said.

The 1960 Grant High School graduate will head 180 employees in the three divisions, which have had an increase from \$2 million to \$50 million in annual sales since 1973.

McKinley became vice president in 1971 and was elected executive vice president in 1978.

Sharon Sarton, director of marketing, said McKinley has the type of leadership that makes the employees feel like part of the company. He gives the employees the freedom they need to be responsible and productive in their jobs, she said.

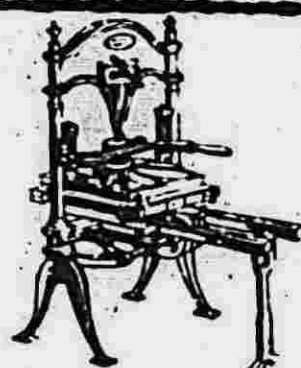

McKinley lives with his wife, Sharon, and three children in their home in Lake Villa Twp.

Scot Forge manufactures hammer forgings as well as press forgings with sizes ranging from five pounds to 40,000 pounds. Materials used vary from basic carbon steels to exotic metals.

Life's A Banquet: Wauconda Theatre

Looking for some local, live, family entertainment? If so, it can soon be found in downtown Wauconda during the third and fourth weekends of November.

The Wauconda High School Theatre Dept. will produce the musical, "Babes In Toyland," at the high school on Nov. 15, 16 and 17. All showtimes will be 8 p.m.

"Babes In Toyland" is a light-hearted show about the Piper children's adventure in Toyland with their villainous Uncle Barnaby. For ticket information, contact the Wauconda High School Theatre Dept., (312) 526-6611.

The Pullman Players, Wauconda's community theatre group, will present the musical, "Mame," in the Transfiguration gymnasium on Nov. 15, 16, 17, 22 and 23. Showtime will be at 8 p.m., with an early curtain at 7 p.m. on Nov. 17.

The musical depicts the life of the free-spirited Mame at the peak of the '20s who is given a "wonderful present" — her orphaned nephew, Patrick. Mame then battles Babcock, the banker,

who wants to make young Patrick a prisoner of the establishment. Meanwhile, the eccentric woman continues to engage in a celebration of life with her colorful friends and playfully persuades them to "open a new window...open a new door." The entire cast emanates the joyful theme that "life is a banquet."

Scouts Serve Record Dinners

Antioch's Boy Scouts of America Troop 92 celebrated its 25th annual spaghetti dinner at the Loyal Order of the Moose Lodge by serving a record number of dinners. The final tally showed that 714 "firsts," 471 "seconds," and 41 children's meals were served between noon and 7 p.m. on Oct. 20.

Chief Chef Dick Stroner came out of retirement again and celebrated his 23rd year at this job. He was assisted in the kitchen by Scoutmaster Bernie Dost and Asst. Scoutmaster Ken Wisniewski. More than 25 scouts worked hard at serving the meals. They were backed up by their moms and dads who worked efficiently and tirelessly to make the event a success.

The main give-away was held at the end of the dinner and included the following winners: Mrs. Robert Shienflug won a tv donated by the State Bank of Antioch; Jean Mieuire won a weekend for two donated by Corbin's Travel; Bruce Hemienway won the grill donated by Foremost Liquor; Lillian Wisniewski won the \$50 savings bond donated by Antioch VFW.

Many other fine prizes were donated by Antioch area merchants, to whom Troop 92 is most grateful. These organizations include: Antioch True Value, Andrew Lynch, First National Bank, NAPA Automotive, Antioch Pizza, AAA Auto Center, The Advertiser, Ben Franklin, Four Squires, Antioch Quick Print, Village Pub, Beirman's Liquor, Hahn Jewelers, Hair Studio, Lake Area Barber, Second Showing, Erickson Sewing, BJ's, Pine Tree Pets, A-Z Rental, Ebb Tide Water Beds, Food Unlimited, Happ's Vegetables, Limerick Lounge, Action Video, Great American Federal Savings & Loan, Antioch-Schwinn, Jackie's Hallmark, Johnson Jewelers, Tony White Shoes, The Globe, Polson's, JJ Blinker/Clowning Around, Antioch Travel, State Line Inn, Dick Weston, Speedway Gas, E & E Electronics, Radke's Barber, Classic Auto, Gerken's Eggs, Jo Pat's, and the Heritage Shop. Troop 92 sincerely appreciates the support of these merchants and to all who attended the dinner.

Special thanks is also

extended to Mrs. Judy Page for her special donation on behalf of Jim Page, her late husband and past governor of the Loyal Order of the Moose Lodge 525. Last but not least, Troop 92 thanks its sponsor, the Moose, for the use of its facility and for the many services it provided.

In addition to the spaghetti dinner, Troop 92 has kept active by its participation at the 75th Anniversary Encampment at Glenview Naval Air Station, and its semi-annual service project at Hartford, Wis. Scouts Mark Aschbacher and Frank Zeien were elected to The Order of the Arrow, a national scout honor society, and completed the requirements at Camp Dan Beard. Many troop activities are supported by the paper drive conducted jointly by the VFW and Troop 92. Area residents are encouraged to bring their newspapers (no cardboard, magazines or books please) and aluminum cans to the VFW trailer located near the sawmill.

Editor's note: This article was submitted by Paul Hettich, committee member of Troop 92 Boy Scouts of America.

Vikings Finish Season 10-0

The Antioch Viking lightweights completed a 10-0 season by posting their 8th shutout over a much-improved Mundelein team 18-0.

The offense was again paced by the running of Greg Loecher with 107 yards and one touchdown, Glenn Graham 55 yards and one touchdown. Glenn also had

three long runs called back because of penalties that were for touchdowns.

The story of the day belonged to Antioch's tough defense that held Mundelein to one first down and minus 60 yards total offense for the game.

The defense blocked two punts, one by Jon DoBosh

and one by Jason DeBruhle caused five fumbles and two interceptions.

The Vikings were coached this year by Bob Horn, Steve Kasco, Mike DoBosh and Head Coach Russ Cote. They would like to thank Antioch for the great team support they received.

Police Seek Assaults Tie

Fox Lake police are investigating a possible link between two attempted sexual assaults.

buildings in the downtown area.

Police said in both instances women were accosted as they were getting in their cars by a man they described as husky and having large hands.

Water Safety Instruction

Red Cross water safety instructor Dean Aldridge of Gurnee demonstrates one way to perform a water rescue effort. The Red Cross life saving class is taught on Sunday evenings at Stevenson High School in Libertyville.

Spotting Potential Hazards Key To Learning Safety

Identifying and coping with hazardous situations is the focus of a number of safety courses offered by the American Red Cross Association of Lake County. Among the classes taught by the Red Cross are first aid, cardiopulmonary resuscitation (CPR), lifesaving and water safety instructor programs.

Red Cross volunteer John Waterhouse has taught all levels of water safety classes for the past 10 years. "We start out teaching youngsters, we go over the basic survival techniques of floatation, proper footing in a pool or lake, and different swimming strokes," he said.

"There are all kinds of hazards that people aren't aware of when they're swimming," he said. "Often, people who have become good swimmers over the summer don't use those

skills during the winter. When they begin swimming again the following year, they easily forget that their endurance level has decreased over the period."

In addition to lifesaving and water safety instructor programs, the Red Cross offers an adaptive aquatics class for the physically and mentally handicapped. "It's rewarding to the students to be able to do something that doesn't require someone else's assistance."

Teaching safety and rescue techniques also extends to first aid and CPR. An ever popular course, the Red Cross first aid class is taught once a month at different locations throughout Lake County. Skills cover treating wounds, burns, and basic rescue efforts when immediate medical care is not available.

Duplication Question

One of the contributing factors in the escalating cost of government has been the propensity of various units of government to duplicate services.

That was the issue in a referendum in the Grayslake Park Dist. Tuesday, Nov. 5 on establishment of a special recreation district designed to serve senior citizens and handicapped persons.

Opinion differed sharply in the district on

whether it would be more feasible to obtain services offered in neighboring districts instead of duplicating the program. There was no argument against the concept of special recreation districts as being worthwhile.

At stake in the Grayslake proposition was the benefit to be obtained. Humanitarian reasons were advanced for support of a tax increase. Practical reasons were cited for opposing duplication. It was a tough call. When the price tag on humanitarianism is ignored, taxes almost always go up. If duplication can be avoided without ignoring social needs, the community usually can have it both ways—the service without unreasonable cost. That seems to be the sensible way to go.

Used Car Tax

A new dimension has been added to one of Lakeland's favorite pastimes, buying and selling used cars. Since Oct. 1, all used car sales, both private and through a dealer, are subject to the five percent sales tax.

The Dept. of Revenue has put together a packet of information that explains to buyers exactly what they have to do. It also contains the forms that need to be sent to the state.

The used car sales tax applies to buyers of cars, trucks, vans, motorcycles, mopeds, motor homes and buses that will be used in the state of Illinois. Only those vehicles 10 years old or less are subject to the tax. Only private sales of used cars are affected by this change; purchases through car dealers have always had the five percent tax.

Some purchases, such as those between close relatives, churches or charity groups, are exempt from the tax. A full explanation of exemptions and instructions is included in the kit, which also contains the Secretary of State's title and registration form and the Dept. of Revenue's tax form.

Porn Project

Mundelein village officials are to be commended for pushing ahead in a controversial and difficult area—the control of sale and distribution of pornographic material.

As Village Atty. Charles Marino points out, the problem of control lies in the eyes of the beholder. "Hard core" pornography, such as books and films, is easier to identify and can be relegated to adult book stores as opposed to "soft porn" such as girly magazines found on local magazine racks and newsstands.

Marino is studying the possibility of requiring that "blindings" be placed over objectionable magazines so that sales could be made only to adults.

Mundelein is moving slowly on the anti-porn project despite continued pressure of citizen groups, mindful of ever-present First Amendment requirements.

Silly Law

State officials continue to send out confusing signals about their sincerity in advancing business development and fostering economic growth. A good example of the conflicting signs is the bill signed into law by Gov. James Thompson that requires employers to continue group health insurance benefits to the spouse of an employee after termination of the marriage through divorce or death. Senate Bill 300 has a misleading name, the Spousal Health Insurance Rights Act.

Although the legislation, which takes effect Dec. 1, provides that the ex-spouse pay the full premium cost, there are indirect costs that will have to be paid by the employer, loads of new red tape, and associated and sundry headaches. The law is reminiscent of the "cradle to the grave" regarding social issues that pervaded our nation so many years beginning with the New Deal in the 1930's. The law also is proof that the Democrats don't have a corner on the market to do stupid and silly things to make doing business in Illinois difficult.

Steinke On Politics

Verdun in eastern France was the battlefield of the bloodiest fighting in the annals of modern warfare. Some 18 divisions each of French and German troops fought each other for 500 days and 500 nights beginning in February 1916. The evenly-matched battle saw-sawed on and on at an impasse until some 400,000 French and 400,000 German soldiers died in the mutual slaughter.

The Great War was a chilling tragedy of a civilization overtaken by doom, seemingly powerless to do anything about it. Most poignant is the comment of Sir Edward Grey, the British foreign secretary, as he watched a lamplighter at work from his office window in Whitehall on Aug. 4, 1914, hours after Great Britain had declared war on Germany. Said Grey: "The lamps are going out all over Europe; we shall not see them lit again in our lifetime."

The 1914-1918 conflict introduced the first weapons of the petroleum age that took advantage of a new mobility and speed that

Plan Caution In Road Salting This Winter

by BILL SCHROEDER

Here's something that makes sense. The Illinois Dept. of Transportation will be using less rock salt this winter to lessen highway and environmental damage—not to mention damage to the family bus.

Charles H. McLean, district traffic and maintenance manager, reported that crews are being instructed to be extremely cautious in using salt. Last winter a total of 190,000 tons of salt—costing more than \$4.1 million—was used in the IDOT district covering Lake, Cook, McHenry, DuPage, Kane and Will counties—the metropolitan area including 3,000 miles of expressway and state-maintained arterial highways.

McLean said the department is very concerned about environmental problems caused by salt. Last winter there were 37 snow warnings for the district and the area had approximately 40 inches of snowfall, considered on the light side for this corner of the state.

Heavy salting of highways is considered one of the prime reasons why vehicles rust

out faster in this area. That's why motorists are advised to wash cars regularly during winter months. Most car washes, by the way, do more business in this locality in the winter than summer because of the salt factor.

MR. 'BAD' WRENCH—County Board Rep. John Balen of Waukegan has served notice that he will take whatever steps are needed to insure provisions that are made for low and moderate income housing in the proposed Cuneo property development in Libertyville Township if county, state and federal funds are to be employed.

Balen is insisting that at least 20 percent of the proposed 4,400 housing units be earmarked for low and moderate housing. Proponents of the project, who see it as a site for posh residential units, undoubtedly are choking on their oatmeal over Balen's threat. If they don't know John, they'll soon find out that he means what he says. Almost single-handedly, Balen turned around plans to expand the County Jail at the County Building complex.

The Cuneo property is situated between Libertyville and Hawthorn Center, and is considered one of the most choice developmental sites—in the nation! The property includes the palatial Italian-style mansion, ornate grounds and adjacent farm land of the late multi-millionaire John F. Cuneo. The home is so large that it includes a private chapel.

RELIVING HISTORY—A group of Lakeland sportsmen is working hard to refurbish the National Athletic Club on the shores of Fox Lake, a 97-year-old facility that recalls an era when a number of Chicago ethnic groups maintained recreational centers on the Chain O' Lakes. NAC was founded by Bohemians.

Walt Lang, a heating contractor and one of the spearheads, said the aim is to get the club house to the point "where it's like stepping back in time." The club is operating an active social and public service program that includes a turkey dinner for the public Sunday, Nov. 24.

★★★★★

LETTER LOAD—Controversial school elections this fall prompted an unprecedented outpouring of letters to the editor, many more than there was space to publish. We thank everyone who took time to express their individual viewpoints and we apologize to the writers whose letters were not printed. Yes, we enjoy hearing from readers and followers of this page know that many letters are published. One problem is that many persons wait until the last minute to write. It never fails.

★★★★★

MASSIVE EFFORT—Judge for yourself whether a massive political campaign effort pays off in school elections. Friends of Warren, out to elect candidates to the Warren High School board in a hotly-contested election centered around the school rebuilding controversy, engineered 8,700 personal telephone contacts out of a possible 14,000 voters in the school district.

John Miller, one of the strategists, reported that 236 persons made approximately 55 calls each to do the job. We can't recall any other get-out-the-vote campaign of this proportion for a school in this locality.

REMEMBER VETS—Tony Galvan of Zion, past 10th Dist. American Legion commander, has issued a touching Veterans Day appeal to Americans to remember our veterans as we get ready to observe Thanksgiving. "It seems to me that the two are unavoidably intertwined," Galvan states. How true. "Just as we will give thanks this month for the bounty, freedom and justice we enjoy in America, we must also give thanks for veterans able and willing to work for the peace, security and betterment of our nation," Galvan declared. Veterans Day is Nov. 11.

Slate United Way Annual Campaign

It is the time of year for the annual appeal for contributions to the Lake County United Way Campaign.

United Way serves as a primary funding source for many of the social service organizations throughout the county.

Among the agencies which received funds from United Way in 1985 are A Safe Place/Lake County Crisis Center for the Prevention and Treatment of Domestic Violence; American Red Cross; Big Brothers/Big Sisters of Lake County; Catholic Charities; Central Baptist Children's Home; Glenkirk; Epilepsy Services of Northeastern Illinois; Family Service Agency; Lake County Society for Human Development; Lake County Urban League; the Boy and Girl Scouts of America; Chain-of-Lakes Senior Services; Northern Illinois Council on Substance Abuse; The Salvation Army; YMCA; YWCA; and the Lake County Community Action Project; to name a few.

Committee Seeks Bottom Line In Rates

The Central Lake County Water Committee appears to be in the final stretch of an ongoing search to purchase Lake Michigan water for its members communities. At the committee's Oct. 24 meeting, Libertyville Mayor Paul Neal said he would contact the four potential sources the committee has looked into, and will try to get the lowest possible water rate each source is offering.

The committee is currently studying four possible alternatives for the purchase of Lake Water: the Lake County Water District in Zion, the city of Waukegan, Lake Forest and Highland Park. Lake Forest has not yet given the committee a quote for the water rate.

"If we can't get better figures in before the next meeting in three weeks, we'll have to move ahead with other plans," he said. In a later interview, Neal added, "The Zion figure is good but it's so but it's so far away. There's 28 miles involved when the lake is only two miles from here."

He also said that if the committee could not find a source with rates that were low enough to satisfy all communities involved, it would be more beneficial for the committee to build its own plant.

Gurnee Mayor Richard Welton said that after completing a study of various water rates, the committee is in more of a position to negotiate costs than before.

"From the information we've collected, we can point out now that we know what the cost of water really is," he said.

One of the problems affecting the water rates is that two members communities are currently buying water from two of the sources being studied by the committee. Gurnee buys water from Zion and Lake Bluff gets its water from Lake Forest.

"Since the two sources already sell to member communities, they don't want to lower their rates to offer wholesale prices to the committee."

Slate Lamaze Series

Having a baby should be a beautiful experience, especially if the expectant parents prepare for the best birthing event. To help parents prepare for childbirth, Victory Health Outreach Center is offering a new Lamaze series of classes.

The series will meet from 7 to 9:30 p.m. each Friday, beginning Nov. 8 and ending Dec. 13, at the outreach center, 121 E. Grand Ave., Lake Villa.

Mrs. Evelyn Worthen, a registered nurse, will instruct the class how to best physically and psychologically prepare for and participate actively in labor and delivery.

"A delivery room should be a happy place," Mrs. Worthen said. "Men adapt much quicker to the role of parenthood if they are present in the delivery room, and nowadays, 99 percent of the husbands do stay in the

delivery room," she added.

Holding a degree in midwifery from her native England, Mrs. Worthen started teaching classes in prepared childbirth about 20 years ago, adapting the method of prenatal care she had learned in England. She has taught thousands of husbands and wives what to expect in preparing themselves for the arrival of a newborn child.

Topics to be included in the six-session series include: the importance of prenatal care, anatomy and physiology, frequently used obstetrics terminology, the father's role in the labor room and delivery room, nutrition, breathing during labor, infant bonding, what to do when your doctor says "stop pushing," and going home.

Couples get out of the course what they put into it, Mrs. Worthen said.

"But there is no magic for-

mula, no promises. They learn how to help themselves. This Lamaze series helps them adopt a very positive approach toward childbirth," she commented.

"The women are not so frightened, and afterward, they are proud of the way their husbands helped them. And husbands are proud of their wives," the nurse added.

Cost for the Lamaze series is \$50. For more information or to register, call Victory Hospital at (312) 360-4123.

Young Composer's Work To Be Aired

Grant Community High School will be the scene of a Chain O' Lakes Cultural Arts Assn. gala Nov. 16, when the association launches what it plans to be an annual Evening with Georgia Cobb and the Chain O' Lakes Orchestra.

Based on the format of the famed Evening with Arthur Fiedler and the Boston Pops, the festivities will begin at 8 p.m. with a half hour of popular show tunes.

While the concert is in progress, the audience will enjoy hors d'oeuvres and other refreshment as it sits about at tables. Next, there will be a half hour "Big Bands" concert by the internationally known Wolves of Lindenhurst. Dancing will then follow for the rest of the evening, with fountains of punch available. Although dress is optional, the Cultural Arts Assn. hopes that its gala will give those who attend a good reason to dress up.

The association will use the proceeds from the gala's \$10 and \$5 tickets of admission for the development of a scholarship fund to assist aspiring young local artists. The first recipient of the association's help will be Stephen J. Wolff, a young composer who has created a full length symphony for the Chain O' Lakes Orchestra. The Orchestra has scheduled its performance for 1987.

Born in 1954, the eldest son of a local family of 17 children, Wolff grew up in

Lindenhurst and attended Prince of Peace Elementary School, Lake Villa; Carmel High School, Mundelein; Marquette University, Milwaukee from which he graduated cum laude; the Wisconsin Conservatory of Music, Milwaukee; and Bowling Green State University, Ohio, where he earned master's degrees in composing, performing, directing, and teaching. Receiving the highest score ever earned on Bowling Green's Master's Degree Placement Test, Wolff subsequently joined the teaching staff of the University.

During these years Wolff also served as principal organist and choir director at St. Joseph's Catholic Church in Round Lake; Christ the King Church, Toledo; St. Mary's of Good Counsel, Adrian, Mich.; Ascension Lutheran Church, Toledo; and the Church of the Jesu in that city.

A writer of both secular and religious music, Wolff has had an increasing number of his compositions recognized, performed, and published. His primary publisher is the prestigious Gregorian Institute of America. In 1979, he locally composed and directed a Mass, presided over by the Cardinal Archbishop of Chicago and commissioned by St. Therese Hospital, Waukegan, to celebrate its 50th Anniversary. With over 70 works to his credit, all of

them performed, Wolff has demonstrated an unusual breadth of interest, ranging from such traditional pieces as Andante Semplice for woodwind trio, Introduzione e Ricercata for brass, and Epithelamion for piano to the avant-garde Variation on an Aberration for viola and electronic tape. Equally at home with jazz, he's devoted a significant portion of his creative time to that form of expression, including such works as Little Red Rocking Horse, Only Every Other Now and Then, and Blueberry Boogie, the latter of which the Wolves will perform on Nov. 16.

Wolff's also fond of choral creation and has written much for voice. Locally his work of this nature is used regularly at the Archdiocese of Chicago's Major Seminary, St. Mary's of the Lake, Mundelein and in his former home parish of Prince of Peace, where he's authorized its employment. Finally, one is struck by his wide interest in the use of diverse instrumentation, such as, his The Thorn, the Worm, the Incorruptible Rose which uses soprano saxophone, viola, and cello, and his Variations for Tuba and Organ. Wolff composes regularly for the Wolves, his Lindenhurst family's dance and show band which the Guinness Book of Records lists in its files as the largest single family band in the world.

"It's outrageous to pay 19.8% interest on a credit card..."

Sue Warndorf, Combined Services Supervisor, coordinates the efficient operation of Skokie Federal's VISA/MasterCard department.

"It's outrageous to pay 19.8% interest on a credit card...yet so many people do. Unfortunately, most people aren't aware that they have another choice. At Skokie Federal, for example, we charge 18% interest and \$15 per year for a VISA or MasterCard. Citicorp, First National Bank of Chicago and Harris Bank all charge 19.8% interest and \$20 per year for a similar card. The choice in this case seems obvious...and in most other cases, too. Skokie Federal has among the lowest finance charges and annual fees offered anywhere.

"It's no wonder my staff and I are kept so busy. The number of customers we have keeps growing every day. Part of our success, too, is the personal attention and service we provide. At the downtown

banks there's frequently a long wait on the phone just to find someone who'll answer a billing question. Our customers know just who to call. They can be assured that their questions will be answered promptly by someone who is familiar with their account.

"I'm proud to be a part of the VISA/MasterCard team at Skokie Federal. I don't think there's a better credit card service around."

HIGHWAY TO HEAVEN

On discovering an unusually large number of dead sea gulls in a small coastal town, Jonathan (Michael Landon) dons a bird suit and goes out on a limb to call attention to a polluting factory, on "Highway to Heaven," **WEDNESDAY, NOVEMBER 13**.

BAWDY! — Before there was Jacqueline Susann or Rosemary Rogers or Jackie Collins, there was Kathleen Windsor, whose "Forever Amber" was a major best-seller back in 1944 and ran into a certain amount of trouble from the censors of the day.

Raquel Welch

It was the tale of Amber St. Clare — a conniving wench if there ever was one. When the book begins, Amber is a simple country maid. Shortly before the book ends, Amber is the favorite mistress of Charles II. Linda Darnell starred in the 1947 movie version, and now Raquel Welch is producing and planning to star in a six-hour dramatization of the novel for ABC. She'll play Amber, of course.

"Forever Amber" is rather short on plot. Amber seemed to spend the bulk of her time seducing men, being seduced, getting abortions, coming down with the bubonic plague, and pining after the one man she truly loved (who unfortunately doesn't seem to care much for her).

YES, YOU CAN!

You may have seen many new satellite earth stations, or "dishes", installed in our area recently and asked yourself, "Are those dishes legal?" or, "Can I have one of those?" Well, happily the answer to both questions is YES. In 1984, the U.S. Congress approved home earth stations designed for the reception of satellite broadcasts. Not only are dishes legal to use, they are affordable, too. You can enjoy the freedom and wide variety of satellite television today.

Lake County Promotes Tourist Business Gain

The first brochures promoting Lake County as a superior vacation area and convention site have been produced by the new Lake County Convention and Visitor's Bureau.

One of the brochures lists events taking place in Lake County from Oct. 1 through the end of the year by date, location, time and costs. The brochure lists everything from pancake breakfasts and antique and concert activities, to dog shows and folk music events.

"The Bureau presently is

compiling information for its next calendar of events which will list activities going on in the county for the first three months of 1986," said Lynn Mallory, consultant. Organizations interested in listing their activities in the brochure, which is being sent throughout the Chicago and Milwaukee area and the remainder of the Midwest, should mail the material to the bureau 90 days prior to the event.

A four-color brochure portraying several of the

highlights in Lake County, has a distribution now underway of 90,000 pieces. The brochure points out that Lake County has 454 square miles beyond the reach of Chicago, offering prime vacation activities and fine meeting and lodging facilities.

Gail Svendsen, secretary and treasurer of the bureau, noted that bureau funding is from memberships and donations from individuals, businesses and institutions including labor unions and municipalities within the county. The history of tourism and convention development is that it brings back many more dollars to the areas that promote it.

She said, "Several million people visit Lake County each year. But few residents and even many of those who come here for vacation or meeting, do not realize the diverse and immense number of interesting activities that take place here. The bureau plans to bring many more people into the area, which in the years ahead is expected to produce many new jobs for area residents."

The bureau is governed by a representative from Chambers of Commerce throughout Lake County and from five members-at-large, some designated by the county board which endorsed its establishment under Illinois law pertaining to convention and tourism bureaus.

Individuals or business management that would like more information, to join the bureau or to see its brochures may do so by contacting the bureau at its current address at 414 N. Sheridan Rd., Waukegan, or by calling (312) 249-3800.

Black, White Cats Change Your Luck

By CHARLENE WHITNEY

At Halloween our thoughts turn to costumes, trick or treat, pumpkins and spooky shows. Then, more than any other time of the year, we might even have just a little fear of black cats crossing our path.

Most Halloween decorations have pictures of a witch and her black cat riding on a broom. The poor black cat used to be linked to the devil himself. In their fear of evil spirits, men have always made the cat an object of fear or hatred. It seems that the black cats and witches were inseparable as we can see from the reports of numerous trials for witchcraft.

It was believed that the cat would pretend to sleep all day long as it was their task to patrol the barns and stables at night to see and hear everything.

In France before 1773, it was believed that all cats were witches. So, on every eve of Saint John, the people of Metz would have a great

bonfire to burn thirteen living cats. It was in 1773 that the wife of the governor put a stop to the cruel game.

In magic practices, the function of the cat is often that of a fetish, lucky charm, mascot, talisman or amulet. Just as it is bad luck to have a black cat walk in your path, it is good luck to have a white cat cross your path.

In America in the Ozark country, many people believe it to be good luck if a strange black cat should visit, but bad luck if the cat stays. Should the family keep a black cat around the house, all the daughters will be old maids.

Nearly everywhere in the world, the black cat is

believed to have the evil eye.

An adulterous Turkish woman would be condemned to be drowned with a living cat thrown in a bag with her.

In many countries all over the world, there are different thoughts about cats.

In Russia, Poland and Bohemia it was thought that to bury a cat alive in a corn field would ensure the best

harvest.

In Anjou, new kittens were never destroyed. They were cared for and then let loose into the streets of the small market towns.

In Egypt, if a cat died and was discovered by a passerby, he would hurry away crying out tears of grief. For anyone guilty of

having, even accidentally, killed a cat, was liable to the death penalty.

Ancient Egypt was the first to discover, among the many small wild cats of Africa, the one which was to become the domestic cat the world over. She selected it, bred it, loved it and came to worship it. From 2000 BC the cat was the object of an established cult to which princes, priests and common people alike contributed.

The goddess was a disturbing creature whom every Egyptian woman wished to resemble in the strangeness of her gaze, her slanting eyes, her supple loins, her noble posture and her animal abandon.

The cat had gone from a goddess to a witch as hundreds of years went by. The cat is neither a god or a devil. It is a beautiful animal that God made and put upon this earth just as he did all the plants and animals. He would not make anything evil.

Cats make wonderful pets that we can enjoy. They help

keep rats and mice under control. They come in all colors and many breeds. They have no magical powers, except to give love and friendship to those who reach out for it. So, it's back to a strictly fun night of trick or treat and imaginary ghosts. As long as God is with us, we have no evil to fear.

Hope your Halloween was fun!

20-13 Victory Makes 'Elite 8' A Reality

For the third time in the eight-year career of Antioch Coach Steve Wapon, his

Sequoits have made the Elite Eight. In 1979, the Sequoits lost the state championship

game to Wheaton North. In 1982 they made the Final Four and lost in the last 42 seconds to Robison.

The Sequoits now in the state quarterfinals, will face Forrest View, Arlington Heights, at 1 p.m. on Saturday, Nov. 9.

The game, unlike Antioch's last two important games, will be played on the Sequoit's home field. A community pep rally and sock hop will be held starting at 7:30 p.m., on Friday, Nov. 8, in the north gym and the commons.

If Antioch beats Forrest View, the Sequoits will play the winner of the Rich East-Joliet Catholic game in the state semi-finals.

"We still have a long tough road to the finals," said Wapon.

Defensive Coach Mike Gorde praised his entire defensive team for stopping Deerfield in the final plays of the overtime. He singled out the running plays of linemen Bob Johnson and Matt Humphreys; Tom Homan, who knocked a Deerfield pass down and tackles Dale Gade and Sean Tuley who made the decisive tackle that ended the game.

Sequoit quarterback Mike DoBosh was 18-32 for 190 yards and one touchdown pass. That all important TD pass to Rob Visee came on the third down during the overtime.

"We beat them in the air," said Wapon comparing Antioch's 190 yards to the Warriors' 60.

Antioch put its first score on the boards with 2:18 left in the first quarter when Pat Bruks had a successful 13 yard pay dirt run. Don Gunther kicked a good extra point.

The Warriors came back to tie it up 7-7, with 31 seconds left in the half. Then, with 4:08 left in the quarter, the Warriors forged ahead. Homan blocked an important extra point kick.

Then the Sequoits bounced back to even the score in the final period after Deerfield elected a quick kick which was blocked by Homan who fell on it in the end zone for the tying score that led to the 13-13 overtime contest.

John Werschheim had another key play in the second half when he gave Antioch good field position by returning a kick 20 yards to make it 1-10 on the 40 yard line.

Round Lake Bows Out To Red Hot Sequoits

by MIKE PRAMSHAFFER

The Round Lake Panthers ended a glorious season by losing to the red hot Antioch Sequoits in the opening round of the IHSA playoffs 27-7.

The Panthers might be disappointed by the way they ended their season but they should be praised for getting as far as they did.

It was the first trip to the IHSA playoffs in Panther history and can be considered as one of their best seasons ever, being co-champs of the Northwest Suburban Conference.

Against Antioch, the Panthers couldn't muster any offense and their highly-touted defense crumbled, giving up a season-high 27 points.

The Sequoits controlled Round Lake's leading rusher Troy Haines for most of the game, holding the senior running back to 36 yards on 11 carries.

The only bright spot in the Panthers' offense was the passing combination of quarterback Walter Tesch to receiver and Northwest Suburban Conference Player of the Year Dave Kaempf.

The two connected five times for a total of 71 yards, including a 28-yard touchdown pass on the first play of the fourth quarter.

However, the junior quarterback was sacked six times by the Sequoits and managed to complete only six of 18 passes. He did manage to scramble for 36 yards on five carries.

The 1985 edition of the Round Lake Panthers varsity football team gave its school something to be proud of and I'm sure head coach Mike Dunn already has plans for the 1986 campaign.

After losing their first two games of the year (against Elmwood Park and Dundee-Crown), the Panthers breezed through Northwest Suburban Conference competition until the last conference game of the year, losing to Lake Zurich 6-3.

Although the Panthers tied with Marian Central for the conference championship, they can still be considered as the best team in the conference.

After all, they defeated Marian 14-7 earlier in the year.

The Winning Catch

Carmel Hoopsters Set For 1985-86

Lake County's 1985 Sweet 16 team, the Carmel Corsairs, paced scores of high school basketball players who have kicked off the 1985-86 season.

They have less than three weeks to get ready for the new hardwood season.

At Carmel, Coach Frank Belmont welcomed back only one regular from last season's outstanding quintet, 5-9 guard Rod Whittier, a senior.

Whittier and 5-11 guard Rodney Lambright of North Chicago will form the nucleus of a "new look" Carmel team, one that will feature speed and quickness instead of the height that characterized Belmont's teams the past four seasons.

Lambright came on fast in tournament play last season. He has the potential of becoming one of the county's outstanding players this year. Whittier is a known quantity for ball handling and a driving layup. This year he will have to take over a leadership role.

What height Carmel will employ will be supplied by 6-

5 Rob Graham, a junior. Others competing for starting jobs include 6-1 George France of North Chicago and Scott Peterson of Lake Zurich. Both are seniors.

Carmel opens the season Nov. 22 against Hersey, which knocked the Corsairs out of the Super Sectional last March.

Die-Hard Bulldogs Get Standing Ovation

by JENNI PARMALEE

Even though the Wauconda Bulldogs won three times as many games as won last season, the closing of the 1985 football season was clouded by feelings of frustration.

The general opinion among players is that the Bulldogs' final overall record is deceiving. "We had more potential than a 3-6 team," senior linebacker Doug Kirk said.

The unusually bad weather conditions of the 1985 season may have been a disadvantage for Wauconda. The Bulldogs endured three straight games of incessant

rain. This becomes a notable factor for a team that compiles most of its yardage through passing plays.

The Bulldogs also had trouble preventing the opposition from scoring on the first few possessions of the game. "In warm-ups and during the first few series, I noticed that it was taking them a lot of the time to get the feel of the game," Loffredo said.

Once the concentration was achieved, the defense put aside the costly mistakes and consistently held back any additional scoring drives. The Bulldog offense made valiant come-back at-

tempts, but they usually fell short. "We should've won more games than we did," senior quarterback Mike Payne said. "There were too many mental errors at crucial times."

Despite the disappointment among Bulldog teammates, Loffredo spoke highly of his players. "They weren't sore losers and they didn't make up excuses," he said. "They have a lot of heart."

These characteristics were evident in Wauconda's near upset of the Northwest Suburban Champion Round Lake. After the Panthers narrowly escaped with a 9-7 victory, the Wauconda Homecoming crowd gave the Bulldogs a standing ovation for their efforts.

Loffredo believes this die-hard attitude will be carried on with the juniors into the 1986 season.

TIME OUT!

A Look At Sports Around Lake County

By Joel Wiltberger

Raking leaves, putting up the storm windows, cleaning golf clubs, insuring the furnace is ready, etc. ... will fill the gap between football and basketball, gymnastics or wrestling as parents of high school athletes take a well deserved "time out."

This interlude has got to come as a state of relief for coaches surrounded by 30 or more teenage athletes since August.

It's a state of relief for parents also, who, if they hear "well the coach said," one more time, will explode into a state never before seen by their son or daughter "the athlete."

I've often wondered how someone who walks around in shorts on cold, wet autumn afternoons and nights, can be such a big influence on these "athletes." His or her word is law around a house that many parents, under an illusion, thought they controlled.

How many times have you taken the garbage cans out to the street because "coach said I should rest and take it easy," or held dinner over because "coach didn't like the way we practiced." Football is over and this Saturday at 6 p.m. I want every parent of a "teenage athlete" to open their doors and shout what's been bottled up in their minds over this last season. "Put some long pants on Coach!"

In other IHSA play-off action, the Northwest Suburban Conference co-leader Marian-Central (8-3) hosts Galena (11-0) in a 2A quarter-final game.

A Look Around The County:

So much for predictions--

Coming off their stunning overtime win against 15th ranking Deerfield (8-3), the Antioch Sequoits (9-2) will be trying to extend an eight-game winning streak in a 5A IHSA quarter-final play-off match at home against Forest View (10-1). The North Suburban runner-up is the only Lake County school still in the hunt.

A Look Back:

Grayslake captured back to back Northwest Suburban football titles in the late 50's under two different head coaches. Pat Rooney's 1957 Rams were 7-0-1 for the season and Dick Oluf's 1958 Rams were perfect at 8-0 outscoring their opponents 172-25.

Workhorse in the 1958 Ram backfield that featured quarterback Gerry Goshgarian, runningbacks Jeff Line and Bob Evans was "The Farmer" a 6'-1," 210 pound senior halfback named Tom Farm, who finished in a tie for the conference scoring title running behind a Ram offensive line manned by Tom Lombard and Bill Stock at ends, Bob Thinnos and Keith Striggow at tackles, Mickey Anderson and Carl Stemler at guards, and Mike Grokis at center.

Late in his final game (a 26-0 victory over Antioch), "The Farmer" (a three-year veteran and all-conference selection) burst around end on his way to another touchdown that would have given him the conference scoring championship. He deliberately stepped out of bounds inside the one yard line to let offensive guard, Carl "Butter" Stemler carry the ball in for a touchdown on the next play, an incident that remained in the minds of Ram rooters for a long time.

Among those to be honored will be Corsair all conference soccer players A.C. Jackson and Matt Porten, seniors, and Art Bustamante, junior.

Honorable mention in East Suburban Catholic League soccer action was accorded Dave Best, Rolando Gonzalez, Guy Iantoni and Chris Manahan, all seniors.

Varsity soccer players finished with a 9-9-1 record and 3-3-1 in ESCC. Carmel sophs had an 18-1-1 record, one of the best soccer seasons in the history of the school. Frosh soccer players took conference for the second straight year.

Carmel varsity golfers finished with a 3-9 record overall and 2-5 in the conference where Sean McIner-

Fete Anglers At Dinner

The top 30 anglers in the Chain-O-Lakes Bass Fishermen's Assn. (BFA) were feted at a kick-off dinner at Harbor Ridge Country Club in Antioch. At that time, they were presented with framed prints by a renowned artist as well as numerous items of fishing tackle donated by various sponsors of this year's tournament circuit.

Ranger Boat Rep. Bob James, Jim Bishop of J and L Gas, and Tony Barcol of Johnson Motors, as well as Sam Rosefsky of Bedford Sales and Ed Shirley were among the many sponsors to also receive one of the prints for outstanding contributions to CBFA.

Checks were presented to the finalists for their efforts in achieving a berth in the Tournament of Champions Classic and they drew their starting place in the two-day classic held on Saturday and Sunday, Oct. 5 and 6.

On Oct. 5, the three top anglers were Mark Lynch (first place) with 11.05 lbs. of bass, followed by Joe Kvacik with 10.45 lbs. and Jim Mielke in third place with 10.51 lbs. of bass. The total catch for the day was 58 bass caught and released alive.

On Oct. 6 with considerably better weather, President Tom Mazur and outgoing president, Denny Martin made the presentation of a completely outfitted Ranger Boat, courtesy of Forrest Wood, president of Ranger Boats, Johnson Motors, Lowrance Electronics and Wauconda Boats. The lucky recipient of the boat and trophy was Mark Lynch with 12.42 lbs. of bass for a two-day total of 23.47 lbs.

Mark was also given another trophy for big bass and a \$100 check. Last year's second place winner repeated his performance and Joe Kvacik took home a \$1,000 check and a trophy for his 18.64 lbs. of bass. Third place was awarded with a trophy and a check for \$750 to Jerry Engnath. Jim Mielke came in fourth and

won \$500, while George Liddle Jr. walked away with \$300 for fifth place. Last year's winner of the ranger boat, Ed Miller, took sixth place and received a check for \$200 and Ron Cokenower took home a check for \$125 for seventh place.

All contestants were again presented with additional fishing tackle from Berkley Trilene and a number of participants were awarded reels and rods, while Lane Parsons took home a McCullah Saw for his efforts.

Membership fees will remain at \$15 and next year's tournament fees will be \$40 per tournament with the best five out of seven tournament points counting. For more information about this outstanding fishing association, call Tom Mazur at (312) 689-4454 or Denny Martin at (312) 546-8749.

October ... 1985

Dear Friend:

The year was 1978. The month October. Pope John Paul I was about to be buried and in Lake County, Great America was completing its second successful year, Woodrow Hayck retired from the Globe Department Store after 49 years and 2% milk was advertised at \$1.01 a gallon; and at the Lakeland Newspapers rising costs had prompted us to raise our subscription rates.

There have been many changes in the seven years since our last price increase, including a 150% increase in the price of the paper this is printed upon, postage increases, wage increases and increased costs for light, heat and water (to say nothing of taxes). Now for the first time in nearly seven years, we are compelled to raise our subscription and newsstand rates.

We know that increased prices are universally unpopular and upsetting to budgets. To ease this transition, during the month of October you may enter a new subscription or renew and add to your subscription at current rates... saving \$2.00 off the rates which become effective November 15, 1985.

We appreciate your patronage and confidence in the Lakeland Newspapers and promise to do our very best in bringing you current news about your neighbors in Lake County, in your schools, in your town, all along with the special features you enjoy every week.

Should you decide to beat the price increase, I welcome you to use the coupon located in this advertisement. But, please, renew or subscribe today because November 15, 1985, the new prices will take effect.

On behalf of our Lakeland Newspapers employees, I thank you for the pleasure and responsibility of providing you with Lake County's best news coverage.

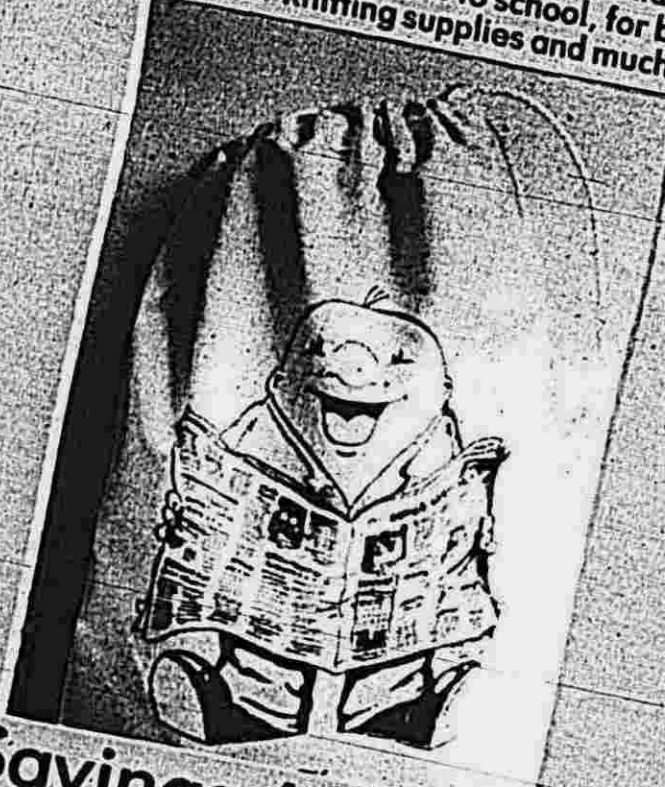

Sincerely,
Bill Schroeder, Publisher

Extend Homestead Exemptions

Senior citizens who temporarily vacate their home will no longer lose their Homestead Exemption, due to a new Illinois law sponsored by State Rep. Dick Klemm (R-63rd).

"Often, following surgery or illness, senior citizens must enter a nursing home for a few weeks to recover," said Klemm. "As a result, their homes are vacant for that period, although they fully intend to return. The old regulations, however, removed their Homestead Exemptions, because they had left the home. To get the exemption restored meant a lot of needless paperwork and worry. This law makes it clear that, as long as their home remains unoccupied, they remain eligible for the Homestead Exemption on the property."

Pet Of The Week

Mary Francis Coon made her way to the Ellis home, Wauconda, along with the rest of the strays who hang out there. Seven years ago, she was a wild cat but has since calmed down; however, she still loves to climb trees and sleep on the garage roof. She also spends a great deal of time sitting in the sun. She's an unusual, moody cat and trusts very few people. The Halloween season is her favorite time of year, during which she miraculously heals herself. Every year, she gets deathly sick and all of her hair falls out; but when Indian summer arrives, she changes back into a thick-coated, mysterious cat just in time to go out spooking and flying from tree to tree on a miniature broom, cackling at the moon!! Murder Suspect Afraid Victim Would Identify Him

by SUSAN MONTGOMERY

A bungled burglary became a night of terror for Kathryn Kretchmer, the 23-year old dental assistant murdered last week, when she caught her neighbor searching for money in her apartment.

John Wayne Chorba, 23, who lived in an apartment across the hall from Kretchmer, was apparently startled when she surprised him, and became afraid she would be able to identify him to authorities. Chorba then brutally beat and strangled Kretchmer before slashing her throat with one of the victim's own kitchen knives.

Police authorities have put together a sequence of events they believe might have occurred.

Kretchmer, who had been employed in the office of Drs. Terri Sellke and Michael Conlon in Grayslake for about two years, had moved back to Grayslake only a week before after living in her parents' home in Paddock Lake, Wis., over the summer.

On Oct. 27, Kretchmer spent the evening with her parents at her apartment. Kretchmer's father had brought a 12-pack of beer, which was put in her refrigerator. The pack of beer later became a key factor in the investigation when it was discovered missing from the refrigerator.

Later that night, while Kretchmer was apparently gone from the building, Chorba used a butter knife to break in to the apartment to look for beer. At that time, he took two bottles of beer and left.

He returned a second time searching for money, when Kretchmer caught him in her apartment. Although it is unclear what time Kretchmer returned to the apartment, Grayslake Police Chief Edmund Wunderle said the suspect indicated the murder took place "somewhere between 2:30 and 3:30 a.m."

Authorities believe that while the two may have been slightly acquainted, Chorba was afraid the victim would be able to identify him. After the attacker had attempted to

strangle Kretchmer, he then raped her and slashed her throat.

Kretchmer's partially nude body was discovered in bed the following morning by a fellow employee who was concerned when she did not appear for work. The employee, Cindy Weiss, obtained a master key from the apartment manager to enter the apartment.

Police investigators said the apartment did not appear ransacked because the victim had only recently moved in and did not yet have a lot of furniture. Authorities did, however, discover that the beer Kretchmer's father had brought was missing.

A number of beer bottles of the same brand in Kretchmer's refrigerator reportedly turned up in the garbage outside the apartment building. A witness had seen Chorba emptying his garbage in the trash bin.

Chorba was initially questioned by police the day after the murder and was released. He was brought in for additional questioning, Wunderle said, because of inconsistencies in his answers. He was charged with the murder on Oct. 29.

Following a court hearing, Chorba was ordered to be held without bond. A date for the trial has not yet been set. A "gag order" was put into effect on Nov. 1 by Lake County Circuit Judge William Block, prohibiting persons involved in the trial to discuss "inflammatory information" with members of the press.

Funeral services for Kretchmer were held on Oct. 31 at the Strang Funeral Home in Antioch. The Rev. Jon Claude Bartlett of the Salem United Methodist Church, Salem, Wis., officiated at the service.

The daughter of Paul E. and Laura A. Kretchmer of Paddock Lake, Wis., Kathryn Kretchmer was one of four children. She is survived by her parents, a grandmother, Esther Littlefield of Chicago; a brother, Paul Kretchmer Jr. of Salem, Wis.; two sisters, Donna Kueny of Pittsburg, Penn., and Linda Kretchmer of Salem, Wis.

Starting Out...Starting Over... Or Starting A New Job...?

There are a lot of reasons why people decide to rent instead of buy. For one thing, a good credit record isn't that easy to establish these days. If you're just starting out, chances are you've never needed credit before now - and you probably don't have a lot of money saved up, either. If you're "starting over" ... well that's difficult enough in itself, without the added weight of credit hassles and long term commitments. And if you just started a new job - even though you may be making more

money - you may still have trouble getting credit, because most credit agencies put a great deal of importance on how long you've been at your job. That's why, with or without a credit record, we've made it so easy for you to RENT the things you want from RENT-A-CENTER - and still have the option to own! So don't let the high cost of buying get you down: Step up to RENT-A-CENTER today - and have the things you want delivered to your home tonight!

The nutrition advisory board members are: Jeffrey Bland, Ph.D., internationally-recognized educator in the field of nutritional biochemistry, and director of the laboratory for nutrient analysis at the Linus Pauling Institute of Science and Medicine; Stanley Dudrick, M.D., past professor and chairman and current professor emeritus, department of oral medicine, University of Alabama School of Dentistry; Kedar Prasada, Ph.D., internationally-recognized authority on vitamins, nutrition and cancer; and H. Floyd DeLuca, Ph.D., professor of biochemistry, University of Wisconsin-Madison, and

internationally-known for his work with Vitamin D, bones and osteoporosis.

One other panel member not able to attend this first meeting is Linus Pauling, Ph.D. Pauling is a two-time Nobel Prizewinner (chemistry in 1954 and peace in 1962), best-selling author and pioneer in the therapeutic and preven-

tative use of Vitamin C. Presently, Pauling is senior research professor and president of the Linus Pauling Institute of Science and Medicine.

This is the first time a panel of such renowned nutritional experts have been gathered for the purpose of direction to a health care facility.

Local Pupils Can Go To School Abroad

"Qualified" high school students are offered a unique chance to spend an academic year or six week summer stay in Scandinavia, Germany, France, Switzerland, Britain, Holland, Spain, or Canada (French and English speaking), as part of the ASSE International Student Exchange Program (ASSE), announced Warren Clague, midwestern director of ASSE.

Students, 15 to 18 years old, qualify on the basis of academic performance, character references and a

genuine desire to experience life with a volunteer host family in Europe or Canada.

"ASSE families are carefully screened to provide a warm and caring environment in which the students can learn the language and culture of their host country," explained Clague.

Summer students will live with an English speaking family. Year students need not speak a foreign language as they will receive cultural and language instruction as part of the ASSE program.

They will attend regular school classes with their host country counterparts. "ASSE students learn by living," added Clague.

The non-profit, public benefit ASSE International Student Exchange Program is affiliated with the Swedish and Finnish Depts. of Education. ASSE is active in the "President's International Youth Exchange Initiative".

Students who are interested please contact: J. e and Tom Wendorf, 3003 Pine Tree Ln., Wadsworth, Ill. 60083, or call (312) 336-0364.

Schedule Benefit

A country music festival jam session will be held for the benefit of George Michaelson, from 2 p.m. on Sunday, Nov. 10, at the Relief Pitcher on Old Skokie Rd. in Park City.

Paul Darling and the Country will be the host band. Money raised will go to purchase a motorized wheelchair for the long-time Lake County reporter who has himself worked hard to raise money for other handicapped people in the past.

Retired Businessman Seeks GOP Nomination

A retired Fox Lake businessman has announced his intentions to seek one of two Republican nominations for Lake County Board Dist. 4 Representative—Antioch, Grant, Lake Villa and Avon townships in the March, 1986, primary.

He is William "Bill" Mesten, 63, owner and operator of Fox Lake's Waltonian Hotel restaurant and lounge for nearly 25 years. Mesten sold the business and retired in 1981. He and his wife, Barbara, reside in Fox Lake.

Mesten said he will be running as an independent Republican.

"I'm offering my interest in public affairs and my legislative experience in the restaurant and lounge industry. I'm committed to devoting all my time and energies to County Board affairs," declared Mesten, a veteran of both World War II and the Korean War.

Mesten pointed out that business requirements prevented him from getting involved in politics, "but that doesn't mean I wasn't able to keep abreast of public issues."

As owner of the Waltonian, a Chain O'Lakes landmark since the early days of the century, Mesten said he enjoyed a wide acquaintanceship with west Lake County leaders and the general public.

The GOP candidate stressed that he has no axes to grind. "My goal is to be the best possible representative of the citizens of Dist. 4."

Mesten is a long-time member of the Fox Lake Chamber of Commerce and Industry. He is commander of the newly organized Fox Lake Post VFW. He also belongs to Lake Region Post American Legion.

He served three and a half years in the Navy during

World War II, including two years in the V-12 program for officer candidates at Notre Dame University.

During the Korean War, Mesten was recalled for 16 months active duty.

He purchased the historical Waltonian Hotel in 1958 and remodeled it into a restaurant-lounge.

He is a past president of the Retail Liquor Dealers Assn. Area 45 and a former member of the Lake County Tavern Owners Assn.

Get Approval To Market Test

Travenol-Genentech Diagnostics ("TGD"), a joint venture of Travenol Laboratories, Inc. and Genentech, Inc., has been licensed by the U.S. Food and Drug Administration to market a diagnostic test for detecting antibody to HTLV-III, the virus identified as the cause of acquired immune deficiency syndrome ("AIDS"). The test will be used primarily to screen donated blood that might transmit the AIDS virus.

The new TGD test has proved to be highly accurate both in sensitivity (the probability that the test result will be positive when infection is present) and

specificity (the probability that the test result will be negative when infection is not present).

Nationwide clinical trials confirmed a sensitivity of 100 percent in patients with AIDS and a specificity of 99.2 percent in random blood and plasma donors.

"Of the tests now on the market, the TGD test has been shown in extensive clinical trials to offer the highest sensitivity in detecting antibodies in AIDS patients," said Robert A. Patterson, M.D., chairman of TGD and senior vice president-scientific affairs, Baxter Travenol Laboratories, Inc.

A positive result means that a donor has been exposed to the HTLV-III virus and has developed antibody (an immune substance in the blood) to it. The test cannot tell when the exposure took place or if virus is still present. A positive test result does not mean that a donor has AIDS or will develop it.

To Read

College of Lake County English instructor Paulette Roeske will read and discuss her poetry at noon, on Nov. 13, at the CLC Grayslake Campus. The reading is free and open to the public.

County Offers Films

In a continuing effort to make Lake County a better, safer place to live, the Lake County Sheriff's Police Dept. has purchased two new audio-visual films.

These award-winning films were developed for the department in its fight against drug abuse and crime. The programs may be obtained through the department's community relations office and are available for showing, free of charge, to schools, civic clubs, churches and parent groups.

Losses from shoplifting cause retailers to increase prices, and effects everyone. "The Anonymous Thief" shows retail employees how to stop shoplifting by learning the methods these thieves employ.

With look-alike and designer drugs and widespread use of cocaine, the drug abuse problem is increasingly complex. "Drugs In The Eighties" is a "state of the art" look at today's drug scene.

For additional information, or to schedule a free showing of any of these films, contact Sgt. Ralph Connard, Lake County Sheriff's Police Dept., (312) 689-5922.

NEXT WEEK'S HOROSCOPE

Aries (Mar. 21-Apr. 19) Romantic Rams and Ewes who want to make a favorable impression on the objects of your intended affection can take heart. Progress is made at the next holiday gala.

Taurus (Apr. 20-May 20) Your sensitive Bovine nose soon sniffs out those phony types who think they have you fooled. Toss them right out of your life and make room for real friends.

Gemini (May 21-June 20) Sometimes paying attention to gossip pays off. Keep alert for tidbits that can provide important tips you can use for your own purposes. Watch your temper.

Cancer (June 21-Jul. 22) Anger eats away at the fabric of friendship. If you still have problems reconciling your differences, maybe it's because you don't want to hear what is being said.

Leo (Jul. 23-Aug. 22) Expand your social commitments to include old friends who might otherwise be forgotten during this period. Look them up and help them have a happier holiday too.

Virgo (Aug. 23-Sept. 22) Holiday plans may need to be changed because of unforeseen situations. Once you explain all to your kin, they'll rally around and support your decisions.

Libra (Sept. 23-Oct. 22) New conditions arise that may force you to make unexpected adjustments in your personal life. But you soon see positive results flow from this difficult act of courage.

Scorpio (Oct. 23-Nov. 21) The time for a trade-off is approaching. Be prepared to share some of your precious privacy in exchange for a personal commitment that can change your life.

Sagittarius (Nov. 22-Dec. 21) A sweet experience shows you how to put more spice in your life. My sage advice? Encourage that special person to feel there's a real chance for a future twist the two of you.

Capricorn (Dec. 22-Jan. 19) Buttress your position with on-the-job superiors by proving how well you cope with holiday pressures. At home, make it a family affair: delegate the work.

Aquarius (Jan. 20-Feb. 18) Holiday expectations rise and wise Aquarians rise up to meet them. Positive actions result in positive reactions. Strengthen your feelings of self-confidence.

Pisces (Feb. 19-Mar. 20) Good news comes thanks to a good friend who gave you the seal of approval. This act of loyalty may change your life. Show your gratitude as soon as possible.

Small McHenry Communities Face Growth, Too

by KAREN WILTBERGER

Just outside the borders of Fox Lake are Spring Grove, Johnsburg and Sunnyside. The McHenry County areas may be small, but they are distinct and on their ways to prove that they have something to offer.

Community Profile

On the northern border of Fox Lake is the Village of Spring Grove with a population of 575. Spring Grove Mayor John Toler looks at his village as a "beautiful place to live." But more than that, he said, Spring Grove is a place of continuing growth.

Since the early 1960s, Spring Grove has experienced phenomenal industrial revolution. During that time, the open acres of Spring Grove have become the home to nearly 25 factories with the largest being Intermatic, which employs some 2,000 people.

The industrial park includes other large companies, such as Scot Forge. Toler says the growth that slowed down in the late 1970s perked up again in the 80s.

Ten acres adjacent to Horse Fair Park in Spring Grove is awaiting approval of a

\$147,000 development grant from Gov. Thompson's Build Illinois Program. Toler said he should know on Feb. 1 if the grant is approved. Plans for the park include a bridge, a road, nature trails, a parking area and a baseball diamond.

Spring Grove has an elementary school for grades kindergarten through eighth grade. High school students attend Richmond-Burton High School.

Just south of Spring Grove is unincorporated Johnsburg, which at some points interweaves with the small Village of Sunnyside.

Nobody quite knows the population of Johnsburg, but everybody seems to know that Johnsburg's schools rate in the top percentage of the state. In the late 1970s, Johnsburg added a high school to its four-school system of: Highwood Elementary School (for first-graders), James C. Busch School (for kindergartners, second- and third-graders), a middle school (grades 4-5) and a junior high school (grades 6-8).

Johnsburg is an old German-Catholic town, settled in 1844, that centers around St. John The Baptist Catholic Church, said Judy Robel, a 14-year Johnsburg resident and a member of the Genealogical Society of McHenry County.

The streets spoke out from the church like a wheel, Robel said. Church St., on which the downtown was formed, used to go downhill from the church to an area where many farmers lived.

In 1952 Johnsburg was the first community in McHenry County to have a Volunteer Rescue Squad. Also keeping Johnsburg together is the community club, which began many years ago.

The Village of Sunnyside with a population of 1,550 also faces progress.

A mall that includes an IGA Grocery Store and six small retail stores is underway and is

expected to be finished by March. Off of the main road, Wilmot Rd., the mall will be called "Wilmot Road Center."

Owner Aldon Thompson, who has owned Sunnyside Foods for 15 years, said the mall will include a restaurant, a beauty salon and a video sales and rental store.

"We're very happy to have this opportunity to serve the community," Thompson said.

Sunnyside Village Clerk Phil Fleming said

the mall will expand the tax base for Sunnyside.

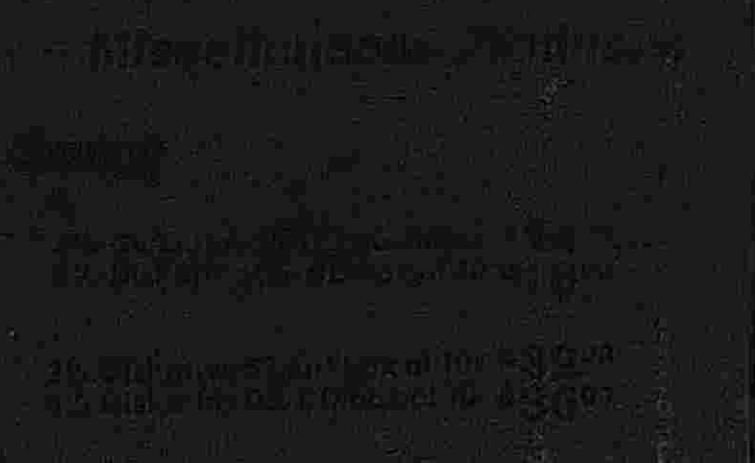

Also expanding is the Sunnyside Police Department. Police Chief Larry Pasquini took over the position full time on Oct. 1 from part-timer John Pomonis.

"They want to build this police department up for the community," Pasquini said about the four-member force, including himself and three part-time officers. "It's a beautiful community looking to expand."

Mall By March

The ground work has begun for a mall in Sunnyside, owned by Aldon Thompson, owner Sunnyside Foods for 15 years. Scheduled to be complete by March, the mall will include an IGA Grocery Store, a beauty salon, a restaurant and a video rental and sales store.—Photo by Jerry Erickson.
